

# CallPlus | feature bundle

the choice is easy

## Feature bundle

For just \$8.95 (excluding GST) per month, you get five business line features:

### **Call Diversion & Remote Divert -**

when you want to redirect your incoming calls to a mobile or landline number of your choice, and manage your diversion from almost anywhere.

Remote Divert:

- Lift the handset and wait for confirmation tone:
- Dial 083215 or 64 83 083 215 from overseas
- Enter your area code
- Enter your phone number (i.e. the number of the phone you are diverting calls from)
- Enter your PIN

### **Call Waiting -**

when you're on a call and would like to know that someone else is trying to get through

- If you're on the phone and another caller phones in, you'll hear four short beeps
- Switch from one call to the other simply by pressing the 'recall' button

### **3 Way Calls -**

when you want to save time and travel costs by conducting a meeting over the phone with two other people

- Dial the second location - wait for them to answer.
- Press the 'recall' or 'flash' button on your phone - you'll hear the engaged tone and then the normal dial tone.
- Dial the third location - when they answer you may talk privately before you press the 'recall' or 'flash' button to connect all three locations.
- If the third location doesn't reply or is engaged, press the 'recall' or 'flash' button twice to go back to the original call.

### **Last Number Redial -**

Last Number makes redialling the last number you called, quick and easy

- Lift the handset and listen to the dial tone
- Dial \*90
- Wait for the ringing tone
